COMMUNITY RESILIENCE
Enable the recognition, understanding, communication of, and planning for risk, and empower individuals and communities to make informed risk management decisions necessary to adapt to, withstand, and quickly recover from future incidents.

MISSION AREA
Mitigation

FUNCTIONAL AREAS
• Collaborative planning and decision-making
• Communication and outreach
• Education and skill building
• Partnership building
• Understanding the community

EXAMPLE WORDING
Buckeye County EMA shares county demographic information and identified hazards with its local partners to encourage collaboration and set appropriate planning goals.

Buckeye County EMA provides Community Emergency Response Team (CERT) classes to develop individual preparedness within the community.

Local partners attend community events, such as the county fair or school presentations, to answer questions and spread awareness of emergency preparedness actions aligned with their roles and responsibilities.

Additional Training Courses: https://www.firstrespondertraining.gov/frt/npcatalog

Examples demonstrate options to consider and are provided for training purposes only. The examples are intended to demonstrate how planning teams may incorporate the key tasks found on FEMA’s Core Capability Development Sheets into planning documents (e.g. the Emergency Operations Plan, Mitigation Plan, Debris Management Plan, HazMat Plan, and so forth). The items in the Functional Areas section are FEMA-identified areas where gaps could exist for the associated core capability.

Counties should not re-design their Emergency Operations Plans around the Core Capabilities; stakeholders should integrate the capabilities within the EOP and in a format that is effective for the jurisdiction.
