INTELLIGENCE AND INFORMATION SHARING

Provide timely, accurate, and actionable information resulting from the planning, direction, collection, exploitation, processing, analysis, production, dissemination, evaluation, and feedback of available information concerning physical and cyber threats to the United States, its people, property, or interests; the development, proliferation, or use of WMDs; or any other matter bearing on U.S. national or homeland security by local, state, tribal, territorial, Federal, and other stakeholders. Information sharing is the ability to exchange intelligence, information, data, or knowledge among government or private sector entities, as appropriate.

MISSION AREA

Prevention/Protection

FUNCTIONAL AREAS

- Analysis of intelligence and information
- Continuous threat assessment
- Developing reports and products
- Disseminating intelligence and information
- Establishing intelligence and information requirements
- Exploiting and processing information
- Feedback and evaluation
- Gathering intelligence
- Monitoring information
- Safeguarding sensitive information

EXAMPLE WORDING

Local law enforcement, in conjunction with state and federal partners, establish intelligence and information requirements for terrorism-related incidents and provide monitoring information to aid in exploiting and processing information.

Local law enforcement coordinates with other first responders to continuously assess threats, analyze intelligence and information and share credible information about terrorism-related incidents with local, state and federal counterparts.

Examples demonstrate options to consider and are provided for training purposes only. The examples are intended to demonstrate how planning teams may incorporate the key tasks found on FEMA’s Core Capability Development Sheets into planning documents (e.g. the Emergency Operations Plan, Mitigation Plan, Debris Management Plan, HazMat Plan, and so forth). The items in the Functional Areas section are FEMA-identified areas where gaps could exist for the associated core capability.

Counties should not re-design their Emergency Operations Plans around the Core Capabilities; stakeholders should integrate the capabilities within the EOP and in a format that is effective for the jurisdiction.
